

Forever

[Sheryl Crow](#)

Lay your head down, don't you worry tonight
Lay your head down, no worries tonight
Can't fix the world no matter how you try
Cannot fix the world, no matter how you try
Give it some time, you will find
Give it some time, you will find
Everything is alright
Everything is all right
There's no such thing as forever
No such thing as forever
But you and me, we've got today
But you and I, we have today
And every moment we're together, I know there is a heaven
And every moment here together, I know there is a heaven
'Cause you make me feel that way
For you make me feel that way
When I get down, you're the one that I call
When I get down, you are the one I call
You pick me up every time that I fall
You pick me up every time I fall
And when you laugh, nothing else matters to me at all
And when you laugh, nothing else matters to me at all
There's no such thing as forever
No such thing as forever
But you and me, we've got today
But you and I, we have today
Every moment we're together, I know there is a heaven
Every moment here together, I know there is a heaven
'Cause you make me feel that way
For you make me feel that way
Garbage out in space, garbage in L.A.
Garbage out in space, garbage in L.A.
Baby, what a waste
Baby, what a waste
Everybody's mad, everybody's sad
Everyone is mad, everyone is sad
See it in their face
See it in their faces
I gotta have the latest
We must have the latest
Gotta have the best, the most, if you wanna be happy
Must have the best, the most, if you want to be happy
Light a match and watch it all go up in smoke
Light a match and watch it all go up in smoke
There's no such thing as forever
No such thing as forever
If we get stuck in yesterday
If we get stuck in yesterday
And every moment we're together, I know there is a heaven

And every moment here together, I know there is a heaven
'Cause you make me feel that way
For you make me feel that way
There's no such thing as forever, no such thing
No such thing as forever, no such thing
But you and me, we've got today
But you and I, we have today
And every moment we're together, I know there is a heaven
Every moment here together, I know there is a heaven
'Cause you make me feel that way
For you make me feel that way
